QUALITY TURBOCHARGER AND SPARE PARTS

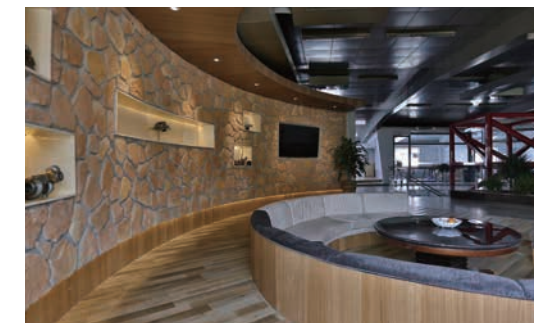

ETP EUROPE SRL  
sales@etpeurope.com

ETP TECHNOLOGY CO., LIMITED is specialized in manufacturing turbocharger products with years of professional experience and have hundreds of models of turbochargers and spare parts, which have been made in high quality by European high turbo technology and great materials with very competitive prices, which are continuously improved time by time. The plant of ETP occupies more than 20000 square meters. We have research and development center, technical machine area, balancing area, assembling area, spare parts and finished products warehouse and hot & cold engine laboratory. With more than 20 years' experience, we provide series of turbo parts. As an experienced supplier, we always strive to ensure the highest standards in precision components by strictly enforcing quality assurance, as well as develop

a quality workforce to source highest quality products at a reasonable cost and ensure on-time delivery to our customers. Our products are exported to more than 30 countries and regions in the world and have won high compliment. Wherever you are located in the world, ETP can supply you with specialist engineers or parts that you need. We keep improving our management and updating measurement and experimentation since establishment. We have brought in advanced production lines for manufacturing turbochargers, and high-precision quality test equipment. Now we are equipped with dynamic balancing machines, high speed chra balancing machines, turbocharger ex-faexperimental platform etc. In our moulding area and casting area, there are Palmary Milling machine and Four-Axis Linkage machine, which help us

accomplish our productions effectively and precisely. Before packing, all products must take in the necessary and strict tests and inspections by experienced and trained inspector. We provide our clients well balanced core cartridges.

Besides that, we have the Three-Axis measuring instrument, which can offer our customers very précised production they need, so the quality is perfectly guaranteed.

In addition, we boast abundant fixed assets and professional technical personnel. Our company has experienced sales and after sales team, our professional and experienced engineers in R&D department have the ability to develop an average of 10-20 species of new models per month according to customer requirements. We are continuously improving our customer service in order to satisfy the customer's needs quickly and comprehensively. You can therefore rely on a strong, worldwide marketing and service network, which offers far more than just turbocharger know how.

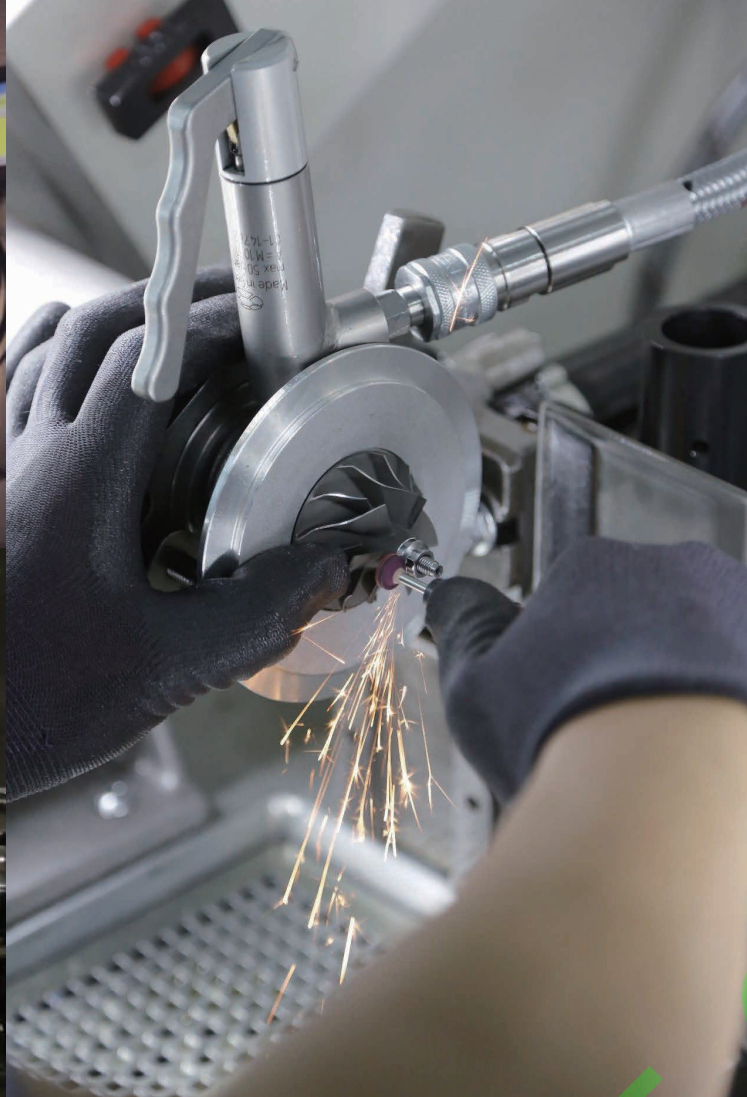

Every part is developed according to the

original model in order to accurately match to the size required; therefore, every part can be freely changed as needed. We have sufficient experience in producing turbo according to samples or drawings. Every ETP Turbo replacement unit is guaranteed to be to Original Equipment standard, so you receive exactly the same unit originally fitted to your vehicle. ETP Turbo Partners supply these quality units to all reputable motor factors—so it is easy to make sure your vehicle benefits from ETP Turbo performance.

We dedicate ourselves to provide special models and services according to the different market characteristics. We aim to be the leading enterprise of turbocharger manufacture world widely.

Sincerely expecting to build mutual benefit cooperation with you in near future, waiting for you to join with us to create a more prosperous and splendid future together!

## Index

### **Core Assemblies** **PAGES 1 - 26**

A quick guide to CHRA/Cartridge Assemblies by turbocharger part number.

### **Turbocharger** **PAGES 27-42**

A quick guide to Turbocharger by turbocharger part number .

### **Nozzle Ring Assemblies** **PAGES 43-50**

A quick guide to Nozzle Ring Assemblies by turbocharger part number .

### **Shaft and Wheels** **PAGES 51-88**

A quick guide to parts available with cross reference information and detail size for identification.

### **Compressor Wheels** **PAGES 89-122**

A quick guide to parts available with cross reference information and detail size for identification.

### **Bearing Housings** **PAGES 123-148**

A quick guide to parts available with cross reference information and basic dimensions for identification.

### **Back /SealPlates** **PAGES 149-178**

A quick guide to parts available with cross reference information and detail size for identification.

### **EGR Valves System** **PAGES 179-182**

A quick guide to EGR Valves System by Reference and Make.
